SEBOKENG - International Science Week was an enormous event.

It was hosted by the ArcelorMittal Science Centre in Sebokeng. Companies and institutions such as IBCT VUT, Eskom, Environmental Affairs, Kitso Ya Setso Heritage, Ford South Africa, Rand Water, Rand Water, North West University, E&T Electronics, Innovation Agency VUT, CSIR, Sebokeng Hospital, and Wits University were part of this great, successful event.

Learners received education in science and what science means to the future of this country.

Secondary and primary schools such as Beverly Hills, Boitumelo, Fundulwazi, Mahareng, Moqhaka, Tokelo, Ramosukula, Suncrest, Sebokeng Tech, Thandukwazi, Tharabollo, Vaal High, Bafokeng, Zithulele, Tshipfela, and Hendrik Vanderbijlpark learners were shown the importance of science and the need for scientists in the country.

Daniel Motsapi (Science Centre Event Coordinator) says they used every method to simplify science for the learners, showing them the easy and fun part of seeking solutions in science.

Learners had a chance to learn more about all the affiliated companies.

Most learners loved the Eskom presentation which was conducted by Abel Namuramba.

They were also thrilled by the duct E&T Electronics by Thabang Thobejane and Edward Seshoka who were a great inspiration.
